CarpetPro Protector RM 762

CarpetPro Protector RM 762 for carpets and textile surfaces.
Effective long-term protection against both wet and dry dirt.
Seals the fibres and makes them hard-wearing.

NEW

Properties

- Highly effective protection for all textile surfaces
- No glueing of the fibres
- Dry dirt lies freely on the carrier material and can be easily vacuumed
- Wet dirt drips off the fibres
- Delays subsequent soiling
- Wet cleaning intervals can be extended
- Especially productive
- Free of phosphates

Application areas:

Car dealership and garage:	Car preparation
Contract cleaning:	Textile surfaces
Retirement homes, doctor's surgery:	Textile surfaces
Hotels, gastronomy, catering:	Textile surfaces
Municipal:	Textile surfaces

acidic — slightly acidic — neutral — slightly alkaline — alkaline

Application:

Spray extraction cleaner

- Vacuum textile surfaces.
- Thoroughly clean textile surfaces and carefully rinse with clear water. Simultaneously vacuum the water.
- Dose the product with clean water accordingly.
- Wet object completely with product.
- Can also be applied to wet surfaces.
- When wetting, keep a spraying distance of at least 30 cm.
- Leave textile surfaces to dry completely before walking on them.

Spraying device

- Vacuum textile surfaces.
- Thoroughly clean textile surfaces and carefully rinse with clear water. Simultaneously vacuum the water.
- Dose the product with clean water accordingly.
- Wet object completely with product.
- Can also be applied to wet surfaces.
- When wetting, keep a spraying distance of at least 30 cm.
- Leave textile surfaces to dry completely before walking on them.

Instructions for use:

- Test on an inconspicuous part for material compatibility.
- Do not soak materials.
- Do not walk on moist surfaces.
- Store away from frost.
