Light and compact scrubber dryer cleans in one pass

Nilfisk-ALTO SCRUBTEC 130E is a small upright scrubber dryer, designed for cleaning of mainly hard surface floors. Scrubbing and drying are done in one pass, so this machine will increase productivity dramatically. Compared to mop and bucket, which are normally used in narrow areas, cleaning is now carried out faster, and the space will be ready for immediate use.

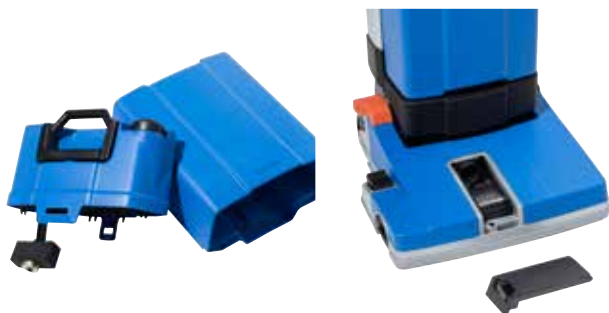

Offered at a very competitive price, the SCRUBTEC 130E enables you to increase productivity and also make the daily cleaning tasks much more comfortable for your staff. Due to its light weight and compact design, the machine can easily be carried and transported. An ideal choice for small shops, schools, restaurants, coffee shops, gas stations, bakeries, fast food chains, hotels, cleaning companies etc., and also in-home cleaning.

”

Using the SCRUBTEC 130E is easy – even when space is limited – thanks to its small size and two-handed ergonomic handle. By lowering the handle, you can scrub and dry under furniture, shelves, etc. and it takes just two push buttons to control the machine comfortably. One button for activating brush and vac motors – and one to turn the water on/off.

Scrubbing is carried out with a high-performance 31 cm cylindrical brush or microfiber roll. You can clean continuously for up to 15 minutes thanks to the 3 liter solution tank and the 4 liter recovery tank. As an important benefit, the suction squeegees are placed both before and after the brush, enabling you to push or drag the machine as it suits you best.

The Nilfisk-ALTO SCRUBTEC 130E is ideal for hard surface floors, and you can also clean small carpet areas, remove spots, etc. with an optional kit including a soft carpet brush and carpet squeegees.

Recovery tank design makes it fast and easy to clean 100% dirt from the tank.

Cleaning hatch for the suction channel. To remove any stuck debris.

Easy change of brush and squeegees.

Cord clip for easy storage of the cord.

Ideally suited for:

- garages
- retail
- gas stations
- small industries
- small offices

The optional manual suction hose is ideal for cleaning any for the machine unreachable areas or spot cleaning

Solid aluminum frame giving a very robust design

Foot operated orange pedal for setting the machine in working position

Two hands working handle for user comfort as standard
Easy to tilt into low positions

10 m detachable cord easy stored on the handle hook

Tank in tank (3 liter solution and 4 liter recovery tank) to carry in one hand, can easily be divided

Foot operated squeegees for lowering /raising when double scrubbing without suction is done to remove persistent dirt

Better performance and higher productivity compared to a mop

- Easy to use, low weight, easy to carry
- Flexible for both hard floors and small carpets (Option)
- Ergonomic two handed operation
- Easy maintenance
- Removable tank in tank system (Carry in one hand)
- Detachable cord 10m
- Transparent solution tank for solution level control
- Simple on/off main switch (also solution pump can be turned off)
